Subject: RE: Draft Agenda for Milestone Meeting
Date: 05/10/2007 10:35 AM

Eric,
I'm hung-up in a couple of mtgs this morning & early afternoon. I'll review the agenda & get back to you either this PM or early tomorrow AM. Will that work?

Subject: Draft Agenda for Milestone Meeting

Chip and Jim, here is a quick attempt at an agenda. I would like to get your input before distributing to the broader managers group. Let me know if this captures everything. Also, I have included a lot of detail here. Let me know if you think if it is too much. Some of this may be better suited as talking points but I wanted to get them down on paper. Also, we probably need to think a little bit more about the Process for moving forward section.

Eric

Status and Update:

Round 3A Sampling Completed (include handout?)

- Upstream and Downstream Sediment
- Lamprey and Sturgeon
- Surface Water and Sediment Traps
- Stormwater

Round 2 Report

- Report - put us in good position for Round 3B and Draft RI and BRAs

- Still work to do on: TZW, Biota, Upstream, Screening Level risk assessment, fate and transport, predictive models

Issues and Potential Stumbling Blocks

Short Term Issues - Must be resolved to develop Round 3B Data Gaps:

On Track:

- Bioassays to assess benthic risk (FSP Submitted)
- Upstream Sampling for Background Determination (FSP expected mid-May)
- Nature and Extent of Sediment Contamination (FSP expected mid-May)

Some Work Required:

- Fate and Transport - work group
- Screening level assessment - need to map to aid in identification of data gaps

Steep Hills:

- TZW - decision framework
- Biota -
- Site Boundary

Long Term Issues - Not critical to data gaps identification:

- IAOPCs
- PRGs
- Some risk evaluation

Next Steps and Project Schedule

Process for Moving Forward:

- Work Collaboratively to Resolve Short Term Issues
- Quickly Elevate Areas of Disagreement

Project schedule - Review relative to June 2006 Schedule:

- Round 2 Report - Submitted on Time
- Round 3B FSPs - FSPs to be completed by July 2007 (not June 2007)
- Sampling Complete - May slip into early 2008
- Draft RI and Risk Assessment Report - Still on Schedule - Round 2 Report is a good vehicle for resolving key issues ahead of time
- Final RI and Risk Assessment Report - Still on Schedule
- Draft FS - Still on Schedule
- Proposed Plan and Final FS - Still on Schedule
- ROD - Still on Schedule
